

FULL FROSTED

INT 280

INTERNAL APPLICATION

White frosted

FULLY HIDES THE VIEW

DESCRIPTION:

This adhesive film turns any window into a white frosted glass. Perfect to avoid unwanted glances while keeping brightness in the room.

Durability: from 12 to 15 years for vertical application in central Europe.

Use: Réfectiv window films are designed for use on any type of clear normal glass.

Maintenance after 30 days: with usual cleaning solutions (non-abrasive, without ammonia...). Cleaning products that may scratch the film should be avoided.

Storage: 2 years from delivery. This film should be kept away from excessive humidity and sun rays, at temperatures below 38°C.

In order to constantly improve our production we may change a product colour and manufacturing process without prior notice.

INFORMATION

MATERIAL:PVC 80 microns
COLOR:White frosted
ADHESIVE:Pure polyacrylic 20 gr/m²
LINER:Siliconed pet 170 microns
THICKNESS:270 microns
APPLICATION FACE :Internal and external
THERMAL RESISTANCE :From -40 to 90°C
APPLICATION T°:min, + 5°C
FIRE RATING: B-S1, D0
STANDARDS:REACH / ROHS
WARRANTY:5 years*

*for glazing not exposed to the sun

DIMENSIONS

1,37 x 2,5 m
 1,37 x 5 m
 1,37 x 10 m
 1,37 x 30 m
 1,37 x 50 m

DRY APPLICATION
BUBBLE FREE

Application's instructions

Application's video

Application Method

The glass surface to be glued on has to be free from dust, grease or other contaminants. Some specific materials such as polycarbonate can cause air bubble problems. Therefore, a compatibility test is recommended. For more precision we recommend to refer back to the application table.

Production and standards

In order to constantly improve our production we may change a product colour and manufacturing process without prior notice. Before applying our products we recommend that our users ensure that the film is suitable for the intended use and comply with current standards.
